Student Success Tracking

The goal of the project is to provide an easy and convenient way to track the success of the students. The system is valid for authorized users and provides them with an access to such actions: view the success of a particular student or group, view the subjects and lecturers lists, give marks for the subjects (provided by the Lecturer), and manage their own account.

Roles: Guest, Student, Lecturer, Admin.

Role	Description
Guest	User who isn't logged in. Can sing up and log in.
Student	User who can view own marks, marks of the group, list of the subjects, list of the lecturers. Can change his/her e-mail and password.
Lector	User who can view list of the subjects, list of the groups, list of the lecturers, student marks. Can give the marks from the subject he/she teaches. Can change e-mail and password.
Admin	User who has access to all the information and can change it. Can manage the registration application. Can change his/her e-mail and password.

Account Management System

| №	Role	Use case	Description
1	Guest	Sign up	Sign up in system.
2	Guest/ Student/ Lecturer/ Admin	Log in	Log in to the system.
3	Student/ Lecturer/ Admin	Log out	Log out from the system.
4		Manage account	Manage own account.
5		Change e-mail	User can change his/her e-mail used for logging in to the system.
6		Change password	User can change own password.
7	Admin	Manage user accounts	Manage the students and lecturers accounts.
8		Delete student	Delete the student account from the system.
9		Delete lecturer	Delete the lecturer account from the system.

Student Performance Tracking System

| №	Role	Use case	Description
1	Student/ Lecturer/ Admin	View information	View the information about list of the subjects, marks, etc.
2		View list of subjects	View the list of all the subjects in the system.
3		View list of lecturers	View the list of all the lecturers in the system.
4		View marks	View the information about the marks.
5	Student	View own marks	View the information about own marks.
6		View group marks	View the information about the marks in his/her group.
7	Lecturer/ Admin	View list of groups	View the list of all the groups..
8		View list of students	View the list of the students in each group.
9	Lecturer	Give marks	Give marks from the subject he/she teaches.
10	Admin	Access to all information	View and change all the information.
11		Change information	Change all the information about the lists of the students, lecturers and subjects, marks, etc.

Applications Management System

| №	Role	Use case	Description
1	Admin	Manage applications	Manage the registration applications sent by the Guests.
2		View application	View the information about the Guest's application.
3		Accept	Accept the registration application.
4		Reject	Reject the registration application.
